TAS Technologies Group

Home of the Experts

With 25+ years in the business we understand the industry & We're ready to help.

Key Features

- Instant notifications of Failures and Success

Once a fax is completed we'll immediately send you a email notification letting you know the result of the fax. Information regarding the fax will be included so your team can take quick action.

- One Click Resend, Redirect & Document Download

Included with the success or failed emailed notifications are one click links to allow agents to resend the fax, redirect the fax to another fax number or email, and to download/view the document. Agents no longer will need to login to the Ultracomm or Fax Server to resend faxes and they can easily assist clients when faxes fail.

- Parsing & Mergcomm Scripts

Included in the emailed notifications are parsable fields. If your have mergecomm we'll give you script that can monitor these notification emails and create automatic dispatch jobs for your agents. They simply click a button in the script to preform the action of resending or redirecting the faxes.

- Simple, No Nonsense Pricing

No long term contracts, no automatic renewals. Just \$25.00 Base Rate and \$0.02 per minute.
